1 次の英文を読み、下の1~5の各問いの答えとして最も適切なものを①~④の中から1つ選び、番号で答えなさい。

Amelia Earhart loved to fly fast and far. She is a famous woman pilot. Amelia was born in Kansas on July 24, 1897. From the start, Amelia was different from other girls. She wanted to have adventures like boys had.

In 1927, Charles Lindbergh flew across the Atlantic Ocean alone and the publisher who published his book asked Amelia to be the first woman to fly across the Atlantic. Though Amelia could fly an airplane in those days, she wasn't ready yet for such a long flight. So, a man named Bill Stulz would fly the plane. Slim Gordon, an airplane mechanic, would go too. Amelia would be a captain. It was 1928, and the trip would be dangerous. There were no instruments to help pilots see their location in bad weather. Amelia wasn't afraid. She thought it would be an exciting adventure. The name of the plane was *Friendship*. The plane took off from and landed in the water. Amelia liked its bright gold wings. On June 17, 1928, *Friendship* took off. The plane flew into fog and clouds. Amelia and the men couldn't see where they were going.

They used their radio to call ships. People on the ships would tell them their location. Then the radio broke. They flew for hours and hours. Were they still going the right way? They didn't know. With one hour of gas left, they had to find out. The pilot flew under the clouds and found a ship. They could have landed near the ship, but then Amelia would not have crossed the ocean. They kept going. They were almost out of gas. Finally, they landed on Burry Port. Everyone read the news. "AMELIA EARHART CROSSES ATLANTIC!" Amelia became famous. She rode in a big parade in New York City.
